

IN THE CLAIMS:

PLEASE AMEND the following claim:

Sub B1 → 1. An illuminated wearable article comprising:

- A3*
- (a) a regular two-dimensional array of pixel display elements having a front light-emitting side and an opposing back side;
 - (b) a graphics controller physically and electrically coupled to the array;
 - (c) a power source physically and electrically coupled to the graphics controller and the array; and
 - (d) a fastener physically coupled to the back side of the array.

PLEASE ADD the following claims:

49. The article of claim 1 further comprising a case, wherein the power source and graphics controller are integrally housed with each other inside the case.

A4 B3 → 50. The article of claim 49 wherein the article occupies a volume of less than 20 milliliters.

51. The article of claim 49 wherein the case is shaped like a rectangular prism.

52. The article of claim 51 wherein the case is essentially cubical.
